

iSAFE

INDIAN ROAD SAFETY CAMPAIGN

**College Name: Govt. College of Engineering, Aurangabad
(Maharashtra)**

Event: Poster Making Competition

Date: 11/09/17

Time: 8:30 to 10:30 am

Participants/ Attendees : 40

Preparations: We, team Autrum decided our schedule and calendar for the first three months activities on 4th September 2017. In the schedule we decided to conduct initially one alpha activity i.e. Poster Making Competition for the first year students of Civil Engineering of Govt. College of Engineering, Aurangabad. The aim to conduct this activity initially was to know about how much the young generation is aware about the road safety problems. The topic given was road safety awareness.

Our team Autrum has made publicity of the event through social media and direct contact to students. We introduced them about the competition and about the iSAFE 2017 program during publicity. We took the permission for the event from the principal of our college as this competition was organised in our college itself. We decided to conduct this event prior to engineer's day as we displayed the posters drawn by students on the occasion of Engineers day in civil engineering department. To give students appreciation, we decided to felicitate the best posters by students on Engineers day from our team's side.

Activities conducted and event details: On the day of competition, a lecture about road safety awareness was given by Dr. R. M. Damgir (Professor, Transportation Engineering) at the end of competition. Sir has encouraged students to actively participate in such events and the students gave a very positive feedback.

The students were asked to explain their posters and what is their opinion about road safety issue.

Positives: All the students actively participated and all the posters drawn by them were very much appreciable. Awareness was created among all the students of college as the posters were displayed publically. All the students who failed to participate in this competition are eagerly excited to take part in the upcoming competition. The top 4 winners of the competition were felicitated by chief guest of engineers day program - Former Commissioner, Revenue Department, Shri Bhaskar Mundhe .

Negatives: Less participants from our expectations.

Note: Three photos and link of video uploaded on facebook given below.
